

**Increase your productivity
with our expertise**

**Cowper Automation
For over 75 years,**

we've been helping Canadian manufacturers solve their most challenging technical applications by implementing innovative automation solutions into their new and existing processes and machinery.

WHAT WE OFFER

Robotic Solutions

Fully-integrated robotic solutions

Application Engineering

Sizing, selection and drop-in replacements

Stocking Distributor

Same-day shipping of stock items

Value-Added Services

Assembly, installation and testing

Technical Support

Phone and in-person support

Service and Repair

Manufacturer-certified repairs

We implement innovative and adaptable solutions that will revolutionize your processes.

Experience and continuous training ensure that we offer the best solution when we work together.

Our people are cross-trained and experienced with the most appropriate electro-mechanical and pneumatic products on the market, giving our customers the automation edge they need. From components to complete assemblies, we incorporate our expertise into manufacturing processes, delivering performance and savings.

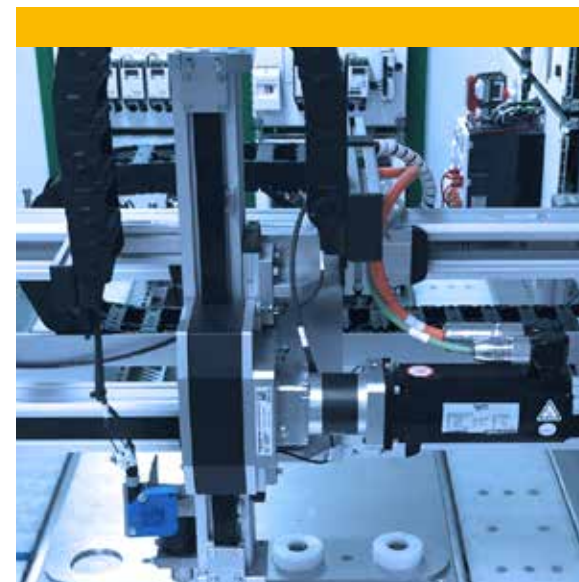

Our customers come first. We listen to you and apply the combined strengths of our supplier partners with our local expertise to implement the most appropriate technologies for your automation needs and budgets.

Our experience drives your success.

Since 1944, we've been establishing close partnerships with our suppliers and customers to deliver world-class, innovative automation solutions accompanied by dependable, reliable and friendly support. The best solutions come from understanding your needs and what is available to meet or exceed them.

Cowper has remained at the forefront of automation, partnering world-leading technology suppliers with customers big and small throughout Eastern Canada. Every business is unique, with different technical abilities and expectations, and we respect that. So, we listen.

If budgets and needs can be met with a simple air cylinder, we deliver. If you wish to leverage Industry 4.0 technologies, we have the experience. If you know what your problem is, but not how to solve it, ask us. We are proud of our people and our suppliers' accomplishments and welcome you to work with us on your solution.

standard

What do you get?

A close partnership with our technical team and our suppliers' engineering departments, our shop capabilities and local support.

Our goal is to provide automation solutions that make your business stand out with greater efficiency, better designed machines and optimal performance. With our experience, we help implement standard catalog items appropriately, design and build control panels to critical applications like nuclear, or offer optimized solutions like USDA certified electric actuators for the food and beverage industry.

PNEUMATIC AUTOMATION

Actuators

Temperature controls
Teach pendants

Power Transmission

Servo gearbox
Speed reducers
Right angle
Clean room
High-speed planetary
Rotary servo actuators
Corrosion resistant

Motors

Stepper motors
AC motors
Linear motors
Extreme temperature
Clean room motor
Motor and drive packages
Servo motors (AC & DC)

Our Certified Machine Safety Experts (CMSE) make sure that they provide the best solutions for your application in order to make your production safe and efficient.

MACHINE SAFETY

- Light curtains
- Fencing & guarding
- Emergency stop devices
- Safety relays
- Safety controllers
- Area scanners
- Safety switches
- Control devices
- RFID

Sensors

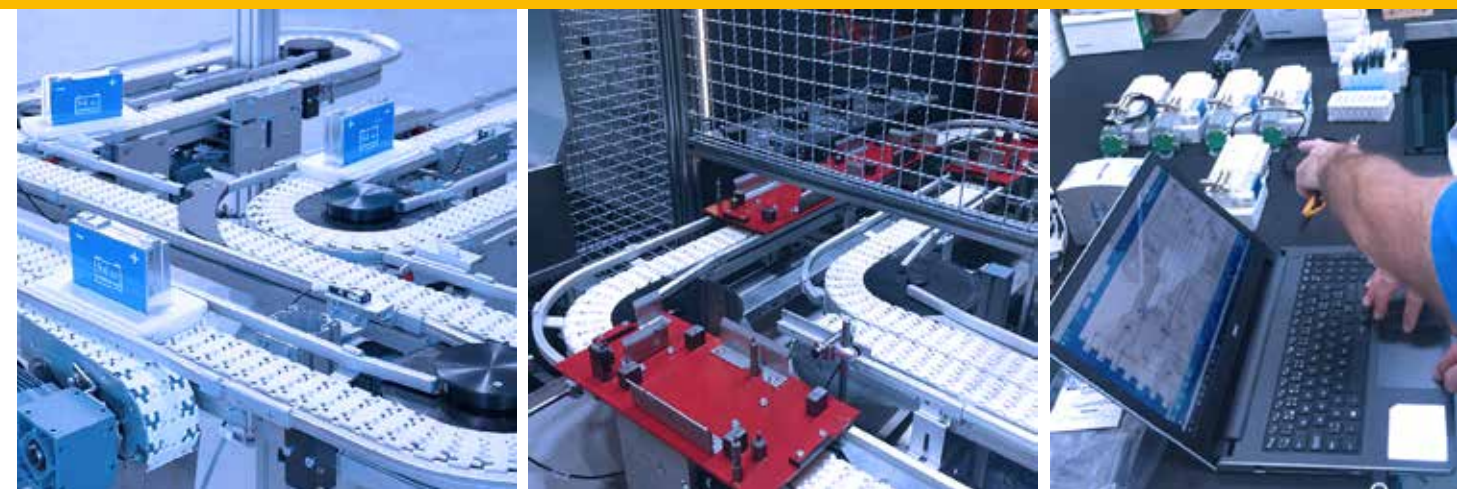

- Inductive
- Proximity
- Photoelectric
- Machine Vision
- Limit Switches
- Encoders
- Capacitive

We offer a wide variety of cutting-edge motion solutions for every environment and application.

AUTOMATION & ROBOTICS

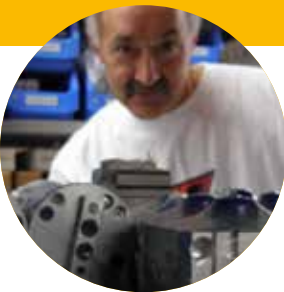

- Electric actuators
- Robotics
- Sensing
- Low-voltage products
- Control components
- Enclosures
- Networking & connectivity
- RFID
- Controls
- Conveyors

HOW WE DO IT

Our unparalleled experience – 600 years of it among 18 employees – as well as our industry-leading vendors allow us to size and select the right technologies in order to optimize performance at the lowest cost of ownership.

Stocking Distributor
Pneumatic cylinders, valves, fittings, sensors, PLCs and more: we provide everything you need to get things moving.

Factory-Authorized
Cowper guarantees quality and dependability with every repair. Our technicians ensure the best ROI for your automation.

Sizing and Selecting
Our experience helps your operations to perform at their best. Ask our team about our cutting-edge solutions.

Assemblies
100% tested assemblies and kits simplify your production and maximize your profitability so that your organization can grow.

OUR PARTNERS

We represent world-class vendors that distribute cutting-edge components, and provide application support for multiple automation technologies.

INTELLIGENT AUTOMATION SOLUTIONS

Cowper Automation is a full-service, award-winning stocking distributor of premier components for industries. From automation controls and vision systems to pneumatic products, we are your one source for best-in-class products and solutions.

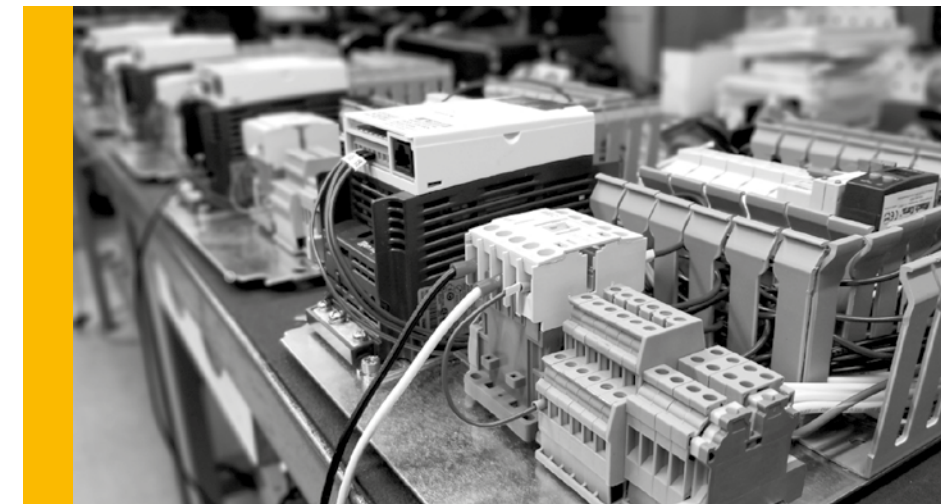

HIGH PERFORMANCE PRODUCTS, SMART SYSTEMS, CUSTOM SOLUTIONS AND UNPARALLELED SERVICE

Cowper is a group of dedicated professionals that deliver premium quality automation and control products. We can help you get a competitive advantage by bringing together world-class controls and actuation along with expert support and seamless integration.
